DETAILED ACTION

1. It is acknowledged that the preliminary amendment received in paper #6 (filed 7/6/01) requests the cancellation of claim 1 only and adds claims 105-117, however it is noted that claims 1-79 have been cancelled and the pending claims are 80-92. The examiner acknowledges that William D. Huse is the sole inventor of pending claims 80-92. Claims 80-92 are subject to a restriction requirement as follows:

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 80-84 drawn to a grafted antibody or functional fragment thereof, classified in class 424, subclass 133.1.
- II. Claims 85-92 drawn to a method of making an enhanced antibody or functional fragment thereof, classified in class 435, subclass 69.6.

3. The inventions are distinct, each from the other because of the following reasons:

The inventions of Groups I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially

different process (MPEP § 806.05(f)). In the instant case the antibody of Group I can be made by a materially different method such as phage display, which has materially different steps and processes compared to the method of Group II.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter and different classifications, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(l).
